Wishing to adopt – why the scrutiny?!

Who should attend

Prospective adoptive parents

Trainer

Franca Brenninkmeyer has 20 years of professional adoption experience and has worked at PAC since 1996. Franca is the Head of PAC's Child and Family Service which provides consultation, assessment and therapeutic services to adoptive families. She regularly presents on adoption and attachment related topics.

This two-hour workshop is for prospective adoptive parents who are questioning why the assessment prior to being 'approved' has to be so arduous and intrusive!

A PAC facilitator will help to explore the post-adoption perspective and there will be plenty of time to ask questions and meet and talk to others who are thinking of becoming adoptive parents.

Prospective adopters who have just embarked upon the formal assessment process are welcome too.
