PAC-UK Private Intermediary Service

Specialist advice, guidance, tracing and intermediary services to support adults affected by adoption

About Us

We have a team of highly skilled and experienced intermediaries and researchers who are passionate about adoption search and reunion and are proud to work within an agency rated as 'Outstanding' in all areas by Ofsted. They prepare and support you through the intermediary process, make a sensitive approach on your behalf and facilitate contact where this is wanted.

One of the key benefits of using a PAC-UK intermediary is the careful preparation that's undertaken. Making an approach in this way shows your relative that you have their welfare in mind; our intermediary will provide support not just to you, but also to the person approached who may not feel able to confide in anyone else.

In April 2020, the management of the Norcap Contact Register (NCR) transferred to Family Action, and is delivered by PAC-UK. This means we can check the NCR for links on behalf of adult adoptees and their relatives.
